

## MACHINE BOLT ANCHORS

### 1. GENERAL

1.01 Machine bolt anchors are used as a fastener when substantial holding is required. They consist of an expansion shield and machine bolt (Fig. 1).

#### TWO TYPES OF SHIELDS

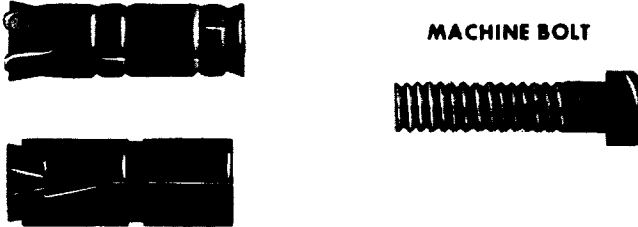

Fig. 1 — Machine Bolt Anchor

1.02 Table A contains type and size of anchors and diameter of predrilled hole required for installation.

TABLE A

Bolt Size	Hole Diameter
in.	in.
1/4	1/2
3/8	5/8
1/2	7/8
5/8	1

1.03 Install machine bolt anchors as illustrated in Fig. 2.
