

## REFERENCE

### 752- AND 754-TYPE TELEPHONE SETS

#### 1. GENERAL

1.01 This section is reissued to:

- Include P1B ringer
- Remove nylon buzzer bracket and show KS-20419L1 buzzer required
- Remove installation information

Changes or additions in the body of tables will be indicated by shaded areas.

1.02 This section provides identification information for the 752- and 754-type telephone sets. For installation and maintenance information for these sets refer to Division 502, section entitled 750, 1750, and 2750 Series Telephone Sets—Common Installation and Maintenance Information.

1.03 Refer to the appropriate Service section in Division 502 for connection information, and Division 512 for use with home interphone and/or 3-type speakerphone.

1.04 These sets may be flush mounted in a 1A-type apparatus box or partially recessed in a 113-type apparatus box. Refer to Division 463 for information on these boxes.

#### 2. IDENTIFICATION

2.01 Component parts for the 752- and 754-type telephone sets are mounted on a steel panel which is secured to the apparatus box. A mat retained by a plastic frame covers the panel and gives the installation a finished appearance.

##### Ordering Guide

##### 2.02 Basic Telephone Sets:

- Set, Telephone, 752A-58, 752B-60
- Set, Telephone, 754A-58, 754B-60
